## Junior Project Manager

### About Tartessos

We create sustainable investments to maximize renewable energy portfolios. We offer a full range of services from greenfield development to ready-to-build, from construction and commissioning to operation and maintenance.

We accumulate a background of more than 40 years in the development of renewable energy projects with an actual project pipeline of approx. 3 GW of greenfield and brownfield PV and wind projects.

### Your role

- Support of the project development team
- Elaboration of permitting documents (including drawings, official letter to authorities, etc.).
- Revision of technical studies (Environmental Impact Assessment, Electrical, Archeological, Hydrological studies, etc.) and coordination with external consulting firms.
- Key account management
- Strategic Analysis of Spanish O&M market
- Community Manager

### Your profile

- University degree in engineering, industrial engineering, environmental science, Master in Renewable Energies or similar.
- Basic understanding of permitting process for RE power plants in Spain.
- Independent self-starter with demonstrated ability to manage large workloads, prioritizing tasks and effectively managing competing deadlines.
- Proactive and solution-oriented, yet with attention to details
- Team player and self-motivated to take responsibility for independent work.
- Good knowledge of relevant Microsoft Office Application.
- Excellent written and verbal communication skills in Spanish and English.
- Driving licence

### Tartessos offers

- Professional and personal development in a solid growing company
- A flexible working environment characterized by expertise, responsibility and innovation
- Non-bureaucratic processes and quick decision making
- Possibility to grow with the company in one of the fastest growing sectors in Spain
- Remuneration: approx. 20.000 €/year (Gross salary)
- Duration: 12 months with possibility for extension
